

Speaker Profile

Joseph has over 15 years of experience in the water industry, with extensive experience in non-revenue water (NRW) reduction at a leading UK utility, a PhD in Mechanical Engineering and a background in product development. As a result, Joseph brings a unique blend of strategic leadership and technical expertise. Joseph regularly contributes to industry-wide learning through leadership roles, including sitting on the management committee of the IWA Water Loss Specialist Group, and through leading and contributing to several industry wide projects. Holding multiple patents, Joseph combines innovation and commercial acumen to drive business growth while advancing NRW reduction solutions globally. Joseph has previously worked in Chile, USA, Canada, Poland, Singapore and the UK, predominantly focused on technology development and industrial R&D.
